- 5th year, majored in MTI (Multimedia and Information Technologies).
- Equivalent to a Master of Science.

High School Louis Armand, Eaubonne, France • 2000 – 2003

- French Baccalauréat with honours equivalent to A-Level.

WORK EXPERIENCE

AlligrA • Enterprise Project • 2007 June – 2007 December

- I'm currently developing a Rich Desktop Application in a 4 developers team.
- We are making the application from the beginning to the end.
- The application will be used in AlligrA by their project managers.
- The technologies used are AIR, Cairngorm, LiveCycle, J2EE and MySQL.

TopButPES.com • Personal Project • Since 2007

- I created a web site talking about Pro Evolution Soccer (www.topbutpes.com).
- I developed it alone in PHP/MySQL with some functionalities in AJAX.
- It's fully optimized for SEO, and there are 800 visitors a day.
- I continue to manage it because I want it to become famous on the web.

Wonderbox • Training Course • 2006 September – 2006 December

- I managed and improved the web site for 1 month (www.wonderbox.fr).
- Then I developed the new version of the site with an intern under my orders.
- I managed the project for 3 months until the end of my training course.
- The technologies used were PHP and MySQL for both versions.
